## PRESIDENTS' MESSAGE

“Creativity is the ability to transcend traditional ways of thinking or acting, and to develop new and original ideas, methods or objects.”

### **Presidents' Theme for 2022-2023: “Creativity in Gardening Expresses Imagination”**

We find creativity in all aspects of our lives and especially find gardening as a way of using new ideas and methods to inspire, nurture, and most importantly have fun. How exciting to have blank space where we can use our imagination to design, plant and grow a new collection of plants. Everywhere we look we see the possibilities of plants, seeds, and trees to make any space more appealing.

This year the Club will offer workshops and activities to bring out our creative self, learn and have fun. We will again have a full schedule of Coffee in the Gardens where members' gardens provide inspiration and new ideas. Our Garden Art workshops will return and provide members an opportunity to use their imaginations to create art to proudly display in their gardens. As you travel through this Yearbook you will see the long list of activities, workshops, study groups, and educational programs being offered.

Our fundraiser promises something fun and different and focuses on what has been a major club event over the years .... our Plant Sales. Plans are underway for an exciting Spring Faire where all types of plants will be available for sale and will feature plant arrangements in creative containers.

In addition to this Yearbook and all the information about our club including the “Club History”, our award-winning website is available for your review. As you browse the website visit the Blog for educational articles, links to gardening, nursery, and community resources, and the schedule of Club activities and events. The Members Only section is your portal to the online Yearbook, current and prior editions of *The Garden Chirp*, and many more features.

Community beautification and outreach continues to play a major role in Club activities and projects. These activities and projects exemplify our commitment to our community and our commitment to creative ways of enhancing our “Friendly Village.”

We are looking forward to another year of gardening fun, education, and creativity.
